All students should make use of the online classes for improving their knowledge/skills in various subjects, as they are staying at home during this lockdown.

Classes X and XII will have one subject every day, whereas other classes have online sessions on alternate days. The intervening days may be fruitfully utilised for the follow-up of lessons done on the previous day.

Online class timings will be announced by the teacher concerned one day in advance so that the students can be prepared for the session

Art, Music, Yoga and Work Experience classes are included so as to make learning fun and thereby more interesting.

In addition to the online classes, all students can make use of the lockdown for exploring their creative talents and bringing out some remarkable achievements.

Students can also read good books and write book reviews for uploading on the Vidyalaya library blog.

These are only a few suggestions; the students are free to enjoy their vacation in any way they choose and as suggested by their parents

But please do not miss the online classes which will be of a short duration daily/alternate days

*Wishing you all fun and joy*
